

ESTIMATION GUIDE

MEASUREMENT SHEET

Front of the House

Rectangles

Identify all the rectangles on the front of the house, including dormers. Measure the height and width of each rectangle and input those dimensions into the fields below.

Note: Round dimensions up to the nearest foot.

ITEM	HEIGHT	WIDTH
Front Rectangle 1		
Front Rectangle 2		
Front Rectangle 3		
Front Rectangle 4		
Front Rectangle 5		
Front Rectangle 6		
Totals		

Subtractions

Please measure any garage doors, sliding doors, large bay windows or multi-pane windows, as they will be subtracted from the total square footage. Enter the height and width measurements below.

Note: Round dimensions up to the nearest foot.

ITEM	HEIGHT	WIDTH
Front Garage Door 1		
Front Garage Door 2		
Front Garage Door 3		
Front Sliding Door 1		
Front Sliding Door 2		
Front Large Window 1		
Front Large Window 2		
Front Large Window 3		
Front Large Window 4		
Totals		

*In calculating the approximate quantity of materials required to complete your vinyl siding project, Georgia-Pacific Vinyl Siding & Accessories® has used reasonable efforts to provide an accurate estimate. However, the information provided is only an approximation. Consequently, no guarantee, representation or warranty has been made that the actual amount of material needed will not vary from this estimation.

Triangles

Identify all the triangles on the front of the house, including the sides of dormers. Measure the height and width of each triangle and input those dimensions into the fields below.

Note: Round dimensions up to the nearest foot.

ITEM	HEIGHT	WIDTH
Front Triangle 1		
Front Triangle 2		
Front Triangle 3		
Front Triangle 4		
Front Triangle 5		
Front Triangle 6		
Totals		

Inside and Outside Corners

Identify all the inside and outside corners on the front of your home.

ITEM	VALUE
Number of Inside Corners	
Number of Outside Corners	

Front Side Eavespan & Roof Line

Measure your home's eavespan (depth of overhang, typically 2') and estimate the amount of roof line (in linear feet) on the front side of your home. Note: Round dimensions up to the nearest foot.

ITEM	VALUE
Depth of Eavespan	
Linear Feet of Roof Line	

Doors, Windows & Porches

Measure any entry doors and porch ceiling areas.

Note: Round dimensions up to the nearest foot.

ITEM	VALUE
Front Entry Door w/ Side lights	
Front Porch Ceiling	
Number of Windows	

ESTIMATION GUIDE

MEASUREMENT SHEET

Left Side of the House

Rectangles

Identify all the rectangles on the left of the house, including dormers. Measure the height and width of each rectangle and input those dimensions into the fields below.

Note: Round dimensions up to the nearest foot.

ITEM	HEIGHT	WIDTH
Left Rectangle 1		
Left Rectangle 2		
Left Rectangle 3		
Left Rectangle 4		
Left Rectangle 5		
Left Rectangle 6		
Totals		

Subtractions

Please measure any garage doors, sliding doors, large bay windows or multi-pane windows, as they will be subtracted from the total square footage. Enter the height and width measurements below.

Note: Round dimensions up to the nearest foot.

ITEM	HEIGHT	WIDTH
Left Garage Door 1		
Left Garage Door 2		
Left Garage Door 3		
Left Sliding Door 1		
Left Sliding Door 2		
Left Large Window 1		
Left Large Window 2		
Left Large Window 3		
Left Large Window 4		
Totals

Left Triangle 6		
Totals		

Inside and Outside Corners

Identify all the inside and outside corners on the left of your home.

ITEM	VALUE
Number of Inside Corners	
Number of Outside Corners	

Left Side Roof Line

Measure your home's eavespan (depth of overhang, typically 2') and estimate the amount of roof line (in linear feet) on the front side of your home. Note: Round dimensions up to the nearest foot.

ITEM	VALUE
Linear Feet of Roof Line	

Doors, Windows & Porches

Measure any entry doors and porch ceiling areas.

Note: Round dimensions up to the nearest foot.

ITEM	VALUE
Left Entry Door w/ Side lights	
Left Porch Ceiling	
Number of Windows	

ESTIMATION GUIDE

MEASUREMENT SHEET

Back of the House

Rectangles

Identify all the rectangles on the back of the house, including dormers. Measure the height and width of each rectangle and input those dimensions into the fields below.

Note: Round dimensions up to the nearest foot.

ITEM	HEIGHT	WIDTH
Back Rectangle 1		
Back Rectangle 2		
Back Rectangle 3
